Following the marriage service, dinner is to be served at the future home of the new couple, on 28th St., where covers will be laid for the bride and groom, Mrs. James L. # MAZOLA

BUTTER, lard and suet have been used for years for deep frying, sautéing or shortening—because the housewife could find nothing better. Today the Food Administrator asks her to use vegetable oils.

And Mazola, the pure oil from corn holds first place among vegetable oils. It is the ideal medium for sautéing, deep frying, shortening and salad dressings from every standpoint.

Mazola reaches cooking heat long before it smokes—cooks food more quickly and at the same time more thoroughly. This does away with that soggy and greasiness so prevalent with the old cooking mediums.

And Mazola can be used over and over again because it does not transmit taste or odor from one food to another!

That is what makes it so wonderfully economical.

Get a can of Mazola from your grocer today. Sold in pint, quart, half-gallon and gallon tins—the large sizes give greatest economy. Also ask for the free Mazola Book of Recipes or write us direct.

Your money refunded if Mazola does not give entire satisfaction.
